Objective.

We are a group of developers & designers from Europe and the United States, curious about the emerging African tech hubs we keep hearing about.

We decided to fill the "blank canvas" ourselves, by visiting some tech communities in the Eastern African Community in June/July 2013. We'll share our impressions and experiences with the global community by creating a video documentary.

Our goal is to kick of a continuous exchange between the new tech communities emerging in Africa and the rest of the global tech community.

The trip.

When	June / July 2013, 4 weeks total
Costs	~ $ 2,000, excluding arrival / departure.
Participants	10 + 2 local creatives
Locations	Nairobi, Kampala, Kigali and Dar es Salaam

Uganda

Kenya

Rwanda

Tanzania

AFRICA HACK TRIP

The plan.

AFRICA HACK TRIP

Milestone I
Ready to rumble
Nov 25
